Adam's Apple.
Adam's apple is the prominence made by the thyroid cartilage on the front of the human throat. It is natural on both men and women, but is larger in men. Adam's apple, or pomum Adam, got its name from the notion that when Adam tried to swallow the forbidden fruit it stuck in his throat. The Adam's apple is an aid to the organ of speech.

Fuller Twinkles.

(With apologies to everybody)
Twinkle, twinkle, little star,
On the window where you are;
Tell the world, it trusts you're true,
That no boozers had by you.

But in the cellar down below,
Are Bill and Jim and Gus and Joe;
And from a keg 'tis said but true,
They're drawing out good, strong, home-brew.

So twinkle, twinkle, little star;
The house you guard shall be passed by
By snooping agents of the "dry".

And those who put you where you are,
Who once did gather at the bar,
Will quench the thirst they'll never lose,
On good-star-guarded home-made booze.

—Fuller Woe.
